WHY REID STOCKFEEDS?

PRODUCT CONSISTENCY
Our stringent testing standards for incoming grain means you can be assured of great product consistency in an ongoing way, not just when you first order.

SYSTEMS
Calibrated weigh bridges, digital load printouts, extensive grain testing and best practice mixing times using industrial grade mixers.

FEED CONVERSION EFFICIENCY
True energy and protein sources with proven benefits in improving feed conversion efficiency.

COMPLEMENTARY FEEDS
We can provide a ration to complement your feed resources on hand and have the expertise to provide advice on how to maximise your profitability. Our nutrition group are recognised as one of the most knowledgable in the industry.

CRUSHED GRAIN MIXES
Being able to physically inspect the consistency of your crushed mix and its contents gives you piece of mind that you are receiving what you paid for.

SILO LOANS
Interest free loans on the purchasing of silo's with blower pipe attached. Please inquire for full details.

KNOWLEDGE
Weekly market reports, nutritional team trained to cater for your enquiry around livestock feeding.
